## PEANUT-MARKETING QUOTAS

---

JUNE 10, 1946.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

---

Mr. PACE, from the Committee on Agriculture, submitted the following

### REPORT

[To accompany H. J. Res. 359]

The Committee on Agriculture, to whom was referred the joint resolution (H. J. Res. 359) relating to peanut-marketing quotas under the Agricultural Adjustment Act of 1938, as amended, having considered the same, report thereon with the recommendation that it do pass.

#### STATEMENT

Under the Agricultural Adjustment Act of 1938, as amended, the duty rests upon the Secretary of Agriculture, between July 1 and December 1 of each year, to proclaim a national marketing quota for peanuts for the crop produced in the next succeeding calendar year, without regard to whether or not the supply-and-demand situation makes such quotas advisable, and submit the question of quotas for 3 years by referendum to peanut producers. While the Secretary is given a limited power to increase or terminate peanut quotas in case of national emergency or material increase in export demand, there is doubt that quotas could be terminated in the event the present emergency is terminated.

Present indications are that quotas are not needed for the 1947 crop; the demand for peanuts and peanut products has approximately doubled during the war years and it is believed that the demand will continue at the same level through 1947, in view of world-wide shortage of protein foods and feeds and fats and oils. So long as the demand for peanuts and peanut products continues at its present level there is greater danger of an undersupply than an oversupply of peanuts.

Furthermore, even should the demand be not as great as expected, in view of the shortage of farm labor and farm machinery it is not likely that there will be an overproduction of peanuts in 1947. Prisoner-of-war labor was used extensively in the concentrated areas of

peanut production during the war years and although there may be some increase in labor as a result of returning personnel from military service and war industries, it is not likely that this will more than offset the loss of the prisoner-of-war labor. In addition, peanuts are among the highest complete foods and, consequently, ideally suited to replace the high protein and fat foods being shipped from this country to famine areas. (See exhibit A.)

Under the act the national quota must be converted to an acreage allotment, and that allotment apportioned to the peanut-producing States. Each State acreage allotment is apportioned among individual farms in the State primarily on the basis of the past acreage of peanuts on the farm. This apportionment requires the collection and evaluation of the acreage and yield data on all peanut farms. The last year for which this information is available is 1942, since that is the last year in which quotas were in effect. To collect the necessary data on which to apportion the State acreage among farms in 1947, it is estimated, would require an expenditure of \$750,000. (This is based on an estimate of \$3 per farm.) Since no funds are available for this purpose, an appropriation of the required amount would be necessary if this work is to be done.

In addition, it is not certain that two-thirds of the peanut producers as required by law, would approve the return of acreage controls at this time. In the event quotas are proclaimed and not approved by the producers, the support programs now available to the producers would be lost. This, of course, would be fatal to this low-income group. But if quotas are not disapproved by farmers voting in a referendum, then the present price-support programs will remain in effect as protection to the producers in 1947.

Without quotas in 1947, farmers would be able to produce peanuts within limitations of labor, equipment, and materials; to adopt needed soil-conservation measures; and to obtain sufficient income from peanuts and other cash crops to permit a gradual adjustment in farming operations from a wartime to a peacetime basis. Such adjustment will be difficult, especially for farmers who have expanded their facilities to meet wartime programs; and it is believed that in order to alleviate individual hardship, the farmer should be allowed to work out his particular problem on the basis of his needs and facilities.

Due to shifts in production and changes in land use during the war, it is believed that a study should be made of the provisions of the Agricultural Adjustment Act of 1938 as relating to marketing quotas for peanuts with a view of determining what changes should be made in the law in order to make it conform to present conditions and future farming practices. It would be impossible to bring about these changes in time for establishment of marketing quotas in 1947 and certainly not in time for the Secretary to begin to accumulate the necessary data upon which to base acreage allotments.

Therefore, the committee recommend that this resolution to eliminate marketing quotas on peanuts for 1947 be enacted at this time so that such permanent changes in the law as are considered desirable may be given thorough study and consideration.

cent" and says that when we do return to acreage control each State will receive at least as much acreage as it was allotted in 1941.

Mr. KEAN. The next bill, of course, recommends a study of the whole question and the formulation of permanent legislation.

Mr. PACE. The next bill will suspend the quotas for 1 year.

Mr. KEAN. The gentleman feels that in spite of the next bill we should pass this one?

Mr. PACE. This bill is unanimously agreed to by everyone, the Agricultural Department and everywhere else.

The SPEAKER. Is there objection to the present consideration of the bill?

There being no objection, the Clerk read the bill, as follows:

*Be it enacted, etc.,* That section 358 of the Agricultural Adjustment Act of 1938, as amended (U. S. C., 1940 ed., Supp. IV, title 7, sec. 1352), is amended (a) by striking out in the provision in subsection (a) and in the first proviso in subsection (c), the language "95 percent of", and (b) by inserting before the colon at the end of the first proviso in subsection (c) the following: "and any additional acreage so required shall be in addition to the national allotment and the production from such acreage shall be in addition to the national marketing quota."

With the following committee amendment:

Page 1, line 6, strike out "provision" and insert "proviso."

The committee amendment was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

#### PEANUT-MARKETING QUOTAS

The Clerk called the joint resolution (H. J. Res. 359) relating to peanut-marketing quotas under the Agricultural Adjustment Act of 1938, as amended.

The SPEAKER. Is there objection to the present consideration of the joint resolution?

Mr. SABATH. Mr. Speaker, reserving the right to object, I desire to ask the gentleman from Georgia [Mr. PACE] a question. In view of his previous statement, I understand that the acreage has been increased by about 300 percent.

Mr. PACE. About treble.

Mr. SABATH. In view of that tremendous increase, why is it that its costs me 60 cents a pound for peanuts now when I used to get them for 10 cents a pound in years gone by?

Mr. PACE. I might say to the gentleman that the farmer receives at the present time 8 cents per pound, and the gentleman can make his own calculation of the spread between the farmer and the consumer.

Mr. SABATH. I pay about seven times as much for them than the farmer receives.

Mr. PACE. The farmer receives between 8 and 9 cents a pound.

Mr. SABATH. In view of the fact that we granted a rule to the gentleman's committee some years ago for the purpose of making an investigation as to the spread, may I ask the gentleman what he has done and why that matter has

not been somehow or another adjusted and the unfair prices eliminated?

Mr. PACE. I might say to the gentleman that under the splendid leadership of our chairman, the gentleman from Virginia [Mr. FLANNAGAN], that committee has been functioning throughout the year. It is very hopeful that it will be in a position shortly to submit some very worth while recommendations.

Mr. SABATH. How soon may we expect a report on it?

Mr. PACE. I hope during the year. The chairman, perhaps, would be in a position to say.

Mr. SABATH. I am anxious to help the farmers because they receive only about one-seventh or one-eighth of what we pay for the peanuts, and I want to know where that money goes, and why.

Mr. PACE. That is one of the problems; the spread between what the farmer receives and the consumer.

Mr. SABATH. I think they should receive a little higher price and we should pay less.

The SPEAKER. Is there objection to the present consideration of the joint resolution?

There being no objection, the Clerk read the joint resolution, as follows:

*Resolved, etc.,* That notwithstanding the provisions of sections 357-359, inclusive, of the Agricultural Adjustment Act of 1938, as amended (U. S. C., 1940 edition, Supp. IV, title 7, secs. 1357 to 1359, inclusive), and in view of the critical shortage of high protein foods and feeds, and fats and oils, peanut marketing quotas shall not be proclaimed with respect to the crop of peanuts produced in the calendar year 1947, and no national, State, or farm acreage allotments for peanuts for the 1947 crop shall be established.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

#### SOLICITOR OF THE DEPARTMENT OF THE INTERIOR

The clerk called the bill (S. 1460) to fix the salary of the Solicitor of the Department of the Interior.

The SPEAKER. Is there objection to the present consideration of the bill?

Mr. RICH. Mr. Speaker, reserving the right to object, I would like to ask the sponsor of this bill to give us a little information on it.

Mr. PETERSON of Florida. This bill fixes the statutory salary for the Solicitor of the Interior. At the present time he comes under the Classification Act. He gets \$9,975, and we deemed it advisable to fix a flat salary of \$10,000 and also to provide that the Solicitor shall be appointed by the President and confirmed by the Senate. The Solicitor's office has gradually increased in importance until it was felt that he should be appointed by the President of the United States and confirmed by the Senate and his salary fixed by law. It amounts to a \$25 salary increase a year over the present incumbent.

Mr. RICH. Why do you adopt this method? Does the Secretary of the Interior recommend it?

Mr. PETERSON of Florida. It came to us from the Senate and it passed the

House and had a favorable report from the Secretary of the Interior except the original bill as drafted contemplated that the Secretary of the Interior would make the appointment, and the Senate and the House felt that the President should make the appointment and confirmation had by the Senate. If we fixed it as a definite statutory position we felt that should be the case. It is not my personal bill, but I think it is a good bill.

Mr. CRAWFORD. Mr. Speaker, reserving the right to object, may I ask the gentleman from Florida this question? After this statutory salary of \$10,000 is set, how much bonus will the official then receive under the laws recently passed?

Mr. PETERSON of Florida. I have not checked as to that. That is a general civil-service bill. We fix the salary definitely at \$10,000. That apparently is the limit, and I understand \$10,000 salaries are not affected under the civil-service bill. That is the limit, and there will be nothing additional.

Mr. CRAWFORD. In other words, those drawing \$10,000 do not receive any additional benefits?

Mr. PETERSON of Florida. That is right.

The SPEAKER. Is there objection to the present consideration of the bill?

There being no objection, the Clerk read the bill, as follows:

*Be it enacted, etc.,* That hereafter the legal work of the Department of the Interior shall be performed under the supervision and direction of the Solicitor of the Department of the Interior, who shall be appointed by the Secretary of the Interior with the advice and consent of the Senate and who shall be paid a salary of \$10,000 per annum.

With the following committee amendment:

Page 1, line 6, strike out "Secretary of the Interior" and insert "President."

The committee amendment was agreed to.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider, was laid on the table.

#### IMPROVEMENT OF RANGE LANDS

R. 1392) for the purpose of renewing and increasing forage and improving watershed conditions on range lands, forests or Indian lands, or other public owned and controlled land of the United States; authorizing the sowing operations by airplane, machinery, or other means, for conducting experiments to improve methods of reseeding, and for other purposes.

The SPEAKER pro tempore (Mr. MILLS). Is there objection to the present consideration of the bill?

Mr. KEAN. I object, Mr. Speaker.

#### AUTHORIZING THE EXCHANGE OF OREGON LANDS

The Clerk called the bill (H. R. 2423) to authorize the exchange of lands acquired by the United States for the Silver Creek recreational demonstration project, Oregon, for the purpose of consolidating holdings therein, and for other purposes.

*Be it enacted, etc.,* That for the purpose of consolidating Federal holdings of lands acquired for the Silver Creek recreational demonstration project, in the State of Oregon, the Secretary of the Interior is hereby authorized to exchange any such lands for other lands of approximately equal value when in his opinion such action is in the interest of the United States, the title to any lands acquired hereunder to be satisfactory to the Secretary. Upon the vesting of title thereto in the United States, any lands acquired pursuant to this authorization shall become a part of the Silver Creek recreational demonstration project, and shall be subject to the laws applicable thereto.

SEC. 2. Upon the conveyance of the Silver Creek recreational demonstration project to the State of Oregon, or political subdivision thereof, pursuant to the act of June 6, 1942 (56 Stat. 326), the Secretary of the Interior may authorize the grantee to exchange or otherwise dispose of any lands so conveyed in order to acquire other lands of approximately equal value for the purpose of consolidating the holdings of the grantee, the title to lands so acquired to be satisfactory to the Secretary. For the aforesaid purpose the Secretary is authorized to execute a release, as to the particular lands involved, of any condition providing for a reversion of title to the United States, that may be contained in the conveyance by the United States to said grantee. No such release shall be executed, however, unless the grantee shall agree, in form satisfactory to the Secretary, that the lands to be acquired by it shall be subject to the conditions contained in the original conveyance from the United States, except that, in lieu of a provision for reversion, the grantee shall agree to convey said lands to the United States upon a finding by the Secretary in accordance with the procedure provided in said act of June 6, 1942, that the grantee has not complied with such conditions during a period of more than 3 years. Lands so conveyed to the United States shall be subject to administration or disposition in like manner as recreational demonstration project lands that revert to the United States under the terms of the aforesaid act.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

#### UNITED STATES MILITARY ACADEMY

*Be it enacted, etc.,* That one additional permanent professor is hereby authorized for each of the nine departments of instruction of the United States Military Academy for which one such professor is now authorized. Such professors shall have the rank, pay, allowances, retirement rights, and other benefits authorized for other permanent professors of the Academy. *Provided,* That the senior professor in each department of instruction shall be the head thereof.

SEC. 2. The positions of professor of law and professor of ordinance of the United States Military Academy hereafter shall be filled by the appointment of permanent professors, who shall have the rank, pay, allowances, retirement rights, and other benefits authorized for other permanent professors of the Academy.

SEC. 3. There is hereby authorized, as an additional permanent professor of the United States Military Academy, a dean of the Academic Board, who shall have such duties as may be prescribed from time to time by the

Superintendent of the Academy with the approval of the Secretary of War. Appointments to this position shall be made from among permanent professors who have served as heads of departments of instruction of the Academy. The dean of the Academic Board shall have the rank, pay, allowances, retirement rights, and other benefits authorized for permanent brigadier generals of the Army, except that the statutory retirement age shall be the same as that of other permanent professors of the Academy.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

#### AMENDING THE MUNICIPAL BANKRUPTCY ACT

The Clerk called the bill (H. R. 6682) to amend sections 81, 82, and 83, and to repeal section 84 of chapter IX of the act entitled "An act to establish a uniform system of bankruptcy throughout the United States," approved July 1, 1898, and acts amendatory thereof and supplementary thereto.

The SPEAKER pro tempore. Is there objection to the present consideration of the bill?

Mr. SABATH. I object, Mr. Speaker.

#### AUTHORIZING CITY OF ANCHORAGE, ALASKA, TO ISSUE BONDS

The Clerk called the bill (H. R. 5112) to authorize the city of Anchorage, Alaska, to issue bonds in a sum not to exceed \$7,500,000 for the purpose of constructing, reconstructing, improving, extending, bettering, repairing, equipping, or acquiring public works of a permanent character, and to provide for the payment thereof, and for other purposes.

Mr. KEAN. Mr. Speaker, I ask unanimous consent that the bill be passed over without prejudice.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

#### AUTHORIZING SCHOOL DISTRICTS IN ALASKA TO ISSUE BONDS FOR SCHOOL CONSTRUCTION

The Clerk called the bill (H. R. 5800) to authorize school districts in Alaska to issue bonds for school construction, and for other purposes.

There being no objection, the Clerk read the bill, as follows:

*Be it enacted, etc.,* That section 1 of the act of May 31, 1938 (52 Stat. 589; 48 U. S. C., sec. 315 and the following), entitled "An act to authorize public utility districts in the Territory of Alaska to incur bonded indebtedness, and for other purposes", is hereby amended to read: "That public utility and school districts in the Territory of Alaska, organized or which may be organized under the laws of the Territory, are hereby authorized to construct, improve, extend, better, repair, reconstruct, acquire, and operate any and all types of public utilities and improvements, school buildings and facilities connected therewith, respectively, under and in accordance with and to the full extent provided by the laws of said Territory relating to public utility and school districts in said Territory, and to incur bonded indebtedness and to issue negotiable bonds for any or all of said purposes: *Provided, however,* That no public utility or school district shall incur bonded indebtedness or issue its negotiable bonds under this act to an amount which

RELATING TO PEANUT MARKETING QUOTAS UNDER THE  
AGRICULTURAL ADJUSTMENT ACT OF 1938, AS AMENDED

---

JULY 2, 1946.—Ordered to be printed

Mr. THOMAS of Oklahoma, from the Committee on Agriculture and Forestry, submitted the following

## REPORT

[To accompany H. J. Res. 359]

The Committee on Agriculture and Forestry, to whom was referred the joint resolution (H. J. Res. 336) relating to peanut marketing quotas under the Agricultural Adjustment Act of 1938, as amended, having considered same, report thereon with a recommendation that it do pass without amendments.

The report of the House of Representatives on said joint resolution is hereby submitted as the report of the Senate committee and is as follows:

[H. Rept. No. 2237, 79th Cong., 2d sess.]

The Committee on Agriculture, to whom was referred the joint resolution (H. J. Res. 359) relating to peanut-marketing quotas under the Agricultural Adjustment Act of 1938, as amended, having considered the same, report thereon with the recommendation that it do pass.

## STATEMENT

Under the Agricultural Adjustment Act of 1938, as amended, the duty rests upon the Secretary of Agriculture, between July 1 and December 1 of each year, to proclaim a national marketing quota for peanuts for the crop produced in the next succeeding calendar year, without regard to whether or not the supply-and-demand situation makes such quotas advisable, and submit the question of quotas for 3 years by referendum to peanut producers. While the Secretary is given a limited power to increase or terminate peanut quotas in case of national emergency or material increase in export demand, there is doubt that quotas could be terminated in the event the present emergency is terminated.

Present indications are that quotas are not needed for the 1947 crop; the demand for peanuts and peanut products has approximately doubled during the war years and it is believed that the demand will continue at the same level through 1947, in view of world-wide shortage of protein foods and feeds and fats and oils. So long as the demand for peanuts and peanut products continues at its present level there is greater danger of an undersupply than an oversupply of peanuts.

Furthermore, even should the demand be not as great as expected, in view of the shortage of farm labor and farm machinery it is not likely that there will be an overproduction of peanuts in 1947. Prisoner-of-war labor was used extensively in the concentrated areas of peanut production during the war years and although there may be some increase in labor as a result of returning personnel from military service and war industries, it is not likely that this will more than

offset the loss of the prisoner-of-war labor. In addition, peanuts are among the highest complete foods and, consequently, ideally suited to replace the high protein and fat foods being shipped from this country to famine areas. (See exhibit A.)

Under the act the national quota must be converted to an acreage allotment, and that allotment apportioned to the peanut-producing States. Each State acreage allotment is apportioned among individual farms in the State primarily on the basis of the past acreage of peanuts on the farm. This apportionment requires the collection and evaluation of the acreage and yield data on all peanut farms. The last year for which this information is available is 1942, since that is the last year in which quotas were in effect. To collect the necessary data on which to apportion the State acreage among farms in 1947, it is estimated, would require an expenditure of \$750,000. (This is based on an estimate of \$3 per farm.) Since no funds are available for this purpose, an appropriation of the required amount would be necessary if this work is to be done.

In addition, it is not certain that two-thirds of the peanut producers as required by law, would approve the return of acreage controls at this time. In the event quotas are proclaimed and not approved by the producers, the support programs now available to the producers would be lost. This, of course, would be fatal to this low-income group. But if quotas are not disapproved by farmers voting in a referendum, then the present price-support programs will remain in effect as protection to the producers in 1947.

Without quotas in 1947, farmers would be able to produce peanuts within limitations of labor, equipment, and materials; to adopt needed soil-conservation measures; and to obtain sufficient income from peanuts and other cash crops to permit a gradual adjustment in farming operations from a wartime to a peacetime basis. Such adjustment will be difficult, especially for farmers who have expanded their facilities to meet wartime programs; and it is believed that in order to alleviate individual hardship, the farmer should be allowed to work out his particular problem on the basis of his needs and facilities.

Due to shifts in production and changes in land use during the war, it is believed that a study should be made of the provisions of the Agricultural Adjustment Act of 1938 as relating to marketing quotas for peanuts with a view of determining what changes should be made in the law in order to make it conform to present conditions and future farming practices. It would be impossible to bring about these changes in time for establishment of marketing quotas in 1947 and certainly not in time for the Secretary to begin to accumulate the necessary data upon which to base acreage allotments.

Therefore, the committee recommend that this resolution to eliminate marketing quotas on peanuts for 1947 be enacted at this time so that such permanent changes in the law as are considered desirable may be given thorough study and consideration.

Passed without amendment S. 2083, to amend the Classification Act so as to

of 1938, as amended, was announced as next in order.

Mr. WHERRY. Mr. President, will not the distinguished Senator from Oklahoma give us an explanation of this?

Mr. THOMAS of Oklahoma. Mr. President, under existing law, the Secretary of Agriculture is authorized and directed to prescribe quotas for cotton production for the year 1947. The cotton crop this year is exceedingly short. We are short of fats and oils and protein feed, so he does not want to prescribe quotas next year for cotton production. He wants to use all the cotton possible, and this will permit that to be done.

Mr. WHERRY. I thank the Senator.

The PRESIDING OFFICER. Is there objection to the consideration of the joint resolution?

There being no objection, the joint resolution was considered, ordered to a third reading, read the third time, and passed.

#### PEANUT MARKETING QUOTAS

The Senate proceeded to consider the joint resolution (H. J. Res. 359), relating to peanut marketing quotas under the Agricultural Adjustment Act of 1938, as amended.

Mr. WHERRY. Will the Senator from Oklahoma explain this joint resolution?

Mr. THOMAS of Oklahoma. The same argument and the same request by the Secretary of Agriculture apply. He asks that there be no quotas imposed on peanuts for 1947.

The PRESIDING OFFICER. The question is on the third reading of the joint resolution.

The joint resolution was ordered to a third reading, read the third time, and passed.

#### STATE APPORTIONMENTS UNDER THE ACT OF SEPTEMBER 2, 1937

The Senate proceeded to consider the bill (H. R. 3821) to amend sections 4 and 8 of the act of September 2, 1937, as amended.

Mr. WHERRY. Mr. President, will the distinguished Senator from Oklahoma give us an explanation of the bill?

Mr. THOMAS of Oklahoma. Mr. President, some years ago Congress passed a bill providing for soil conservation. It was a cooperative program. It was to be managed by the Government, but the program was to be handled in cooperation with the States, provided the States would pass State cooperative laws. From that time until this only about 23 States have passed cooperative laws relating to soil conservation, and the Department thinks it would be well to extend the time for three more years for the passing of laws by the States so that they may get the benefits of the law.

Mr. WHERRY. Very well.

The PRESIDING OFFICER. The question is on the third reading of the bill.

The bill was ordered to a third reading, read the third time, and passed.

#### TWO ADDITIONAL ASSISTANT SECRETARIES OF AGRICULTURE

The bill (S. 1923) to establish two additional offices of Assistant Secretaries

of Agriculture, and for other purposes, was announced as next in order.

Mr. WHERRY. Over.

Mr. THOMAS of Oklahoma. Will the Senator withhold the objection for a moment in order that I may make an explanation favorable to the bill?

Mr. WHERRY. Certainly.

Mr. THOMAS of Oklahoma. The Department of Agriculture was created, as I recall, about 1884. Since that time the Department has grown rapidly, and at the present time it is more than a billion dollar concern. The last time Congress provided for a special assistant secretary for the Department was in 1934, at which time Congress created the Office of Under Secretary of Agriculture. Since that time Congress has added additional bureaus and imposed additional work and additional responsibilities on the Department.

Secretary Anderson, in a personal letter to the committee, asked for two additional Assistant Secretaries of Agriculture. He hopes to group the branches in his Department, and put one high-type man at the head of each group and depend upon that man to manage that group. Then all these men will come together in a sort of board of directors, and he will be the chairman of the board. That appears to me to be the plan of organization. The Secretary asks for two additional Assistant Secretaries to help him carry on this work.

I shall read just one line from the Secretary's letter:

I think that this proposed legislation is necessary to make the Department an efficient and businesslike organization. I, therefore, strongly urge its immediate favorable consideration.

That is the basis for the proposal.

Mr. WHERRY. I ask that the bill go over at this time.

The PRESIDING OFFICER. The bill will be passed over.

#### AMENDMENT OF AGRICULTURAL ADJUSTMENT ACT OF 1938, WITH RESPECT TO PEANUTS

The bill (H. R. 5958) to amend the Agricultural Adjustment Act of 1938, as amended, was announced as next in order.

Mr. WHERRY. Mr. President, may we have an explanation of the bill?

Mr. THOMAS of Oklahoma. Mr. President, under existing law peanut quotas have to be established each year. We have just passed a bill relieving the Secretary from imposing such quotas for the year 1947. This bill proposes to increase the quota. At the present time each grower of peanuts is allowed 95 percent of what was allowable in 1941. The growers want the 95-percent limitation removed and to be permitted to plant 100 percent of the 1941 quota and an additional amount, if they so desire.

Mr. WHERRY. I have no objection.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the bill (H. R. 5958) to amend the Agricultural Adjustment Act of 1938, as amended, was considered, ordered to a third reading, read the third time, and passed.

#### EXTENSION OF SOIL CONSERVATION AND DOMESTIC ALLOTMENT ACT

The bill (H. R. 6459) to extend the period within which the Secretary of Agriculture may carry out the purposes of the Soil Conservation and Domestic Allotment Act by making payments to agricultural producers, was announced as next in order.

Mr. WHERRY. Mr. President, may we have an explanation of this bill from the distinguished chairman of the Committee on Agriculture and Forestry?

Mr. THOMAS of Oklahoma. As I understand, Mr. President, the purpose of the bill is simply to extend the life of the Soil Conservation and Domestic Allotment program. I think the bill only strikes out the dates which are now in the law and extends the law for 2 years. That is my recollection of the bill.

Mr. WHERRY. I have no objection.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the bill (H. R. 6459) was considered, ordered to a third reading, read the third time, and passed.

#### ESTABLISHMENT OF AN INTERNATIONAL ANIMAL QUARANTINE STATION ON SWAN ISLAND

The joint resolution (H. J. Res. 364) to provide for the establishment of an international animal quarantine station on Swan Island, and to permit the entry therein of animals from any country and the subsequent importation of such animals into other parts of the United States, and for other purposes, was announced as next in order.

Mr. WHITE. Mr. President, in what State is Swan Island?

Mr. THOMAS of Oklahoma. Let me say first that the bill is based on the following facts: South of us is Mexico. We have prohibitions against the importation of cattle and livestock from Mexico. We cannot get cattle from countries to the south of us through Mexico. It is proposed to establish a quarantine station on Swan Island, which is located in the Caribbean Sea, to which animals from Mexico, Central America, and South America may be brought, there examined and inspected, and if they are found to be without disease, come into this country.

The bill has two purposes. The first purpose is to prevent diseased cattle from entering the United States. The second purpose is to enable the importation of certain desirable strains of South American cattle by providing a place where they can be inspected, and if found to be free from disease allow them to come into the United States.

Mr. CONNALLY. Mr. President, will the Senator yield?

Mr. THOMAS of Oklahoma. I yield.

Mr. CONNALLY. I wish to confirm and reenforce what the Senator from Oklahoma has said about this matter. Cattlemen all over the United States are very much interested in the establishment of this quarantine station. They find it is necessary to have it established because of the provisions of the tariff

law which will not permit the cattle to be brought into the United States, even after they are inspected, unless this station is established.

Mr. WHERRY. Does the measure in any way break down the barrier now erected against the importation of cattle from the Argentine? We do not now import any cattle from the Argentine, do we?

Mr. CONNALLY. We do not import any cattle from any country in which it is found that the foot-and-mouth disease exists. This quarantine station is designed to detect the foot-and-mouth disease. No cattle are permitted to be imported into the United States who are affected by the foot-and-mouth disease, whether they are from the Argentine or from any other country.

Mr. WHERRY. Is the proposed importation of stock primarily for breeding purposes?

Mr. CONNALLY. That is one of its aspects, but the measure covers the whole field.

Mr. WHERRY. What I am trying to find out is this: Would the passage of this measure in any way increase the importation of cattle from countries from which cattle are already precluded from being imported into the United States?

Mr. CONNALLY. No.

Mr. THOMAS of Oklahoma. The purpose is twofold. First, to keep out cattle which should not be imported, and, second, to permit the importation of cattle which are thought to be desirable because they are of certain breeds and strains.

Mr. CONNALLY. Cattle which have no disease.

Mr. THOMAS of Oklahoma. Yes; cattle which have no disease.

Mr. WHERRY. Are the cattle in question pure-bred cattle?

Mr. THOMAS of Oklahoma. There may be certain little impurities.

Mr. WHERRY. Will they come into direct competition with the cattle produced in the United States?

Mr. THOMAS of Oklahoma. That is not the intent of the bill.

Mr. WHERRY. That is what I am trying to find out.

Mr. THOMAS of Oklahoma. There is supposed to be a limitation. At the same time it is proposed to erect this station so that importation of desirable cattle into the United States may be permitted for breeding purposes.

Mr. BROOKS. Mr. President, I may explain to the Senator from Nebraska that in a strain of cattle in the Southern States, there has been no new base stock for several years. There are some sires already in Mexico, which are desired for breeding purposes. The purpose of this measure is to establish on Swan Island an inspection center, not only to keep diseased cattle out of America, but to inspect cattle for countries around our border, in order, if possible, to help other countries keep diseased cattle out of their borders, because if they import cattle having foot-and-mouth disease and they come to the border of the United States, invariably the disease will wash over the border.

Mr. WHERRY. Mr. President, I have no objection to the joint resolution.

The PRESIDING OFFICER. Is there objection to the present consideration of the joint resolution?

There being no objection, the joint resolution (H. J. Res. 364) to provide for the establishment of an international animal quarantine station on Swan Island, and to permit the entry therein of animals from any country and the subsequent importation of such animals into other parts of the United States, and for other purposes, was considered, ordered to a third reading, read the third time, and passed.

#### TRAINING OF OFFICERS FOR THE NAVAL SERVICE

Mr. CORDON. Mr. President, when calendar 1659, Senate bill 2304, was reached I voiced objection to the bill, simply to afford me some time to look into the matter. I am now satisfied to withdraw my objection.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill (S. 2304) to provide for the training of officers for the naval service, and for other purposes, which had been reported from the Committee on Naval Affairs, with amendments.

The first amendment was, on page 3, line 3, after the word "appointed", to strike out "misdhipmen" and insert "Midshipmen."

The amendment was agreed to.

The next amendment was, on page 7, line 13, after the word "Navy", to insert "to insure that the precedence of the officers shall be in accord with their demonstrated performance, regardless of the source from which prescribed, and giving due consideration to whatever differences may exist in the methods of assigning grades between the various education institutions at which the officers have been educated."

The amendment was agreed to.

The next amendment was, on page 8, line 9, after the word "service", to strike out "An officer who accepts a commission in a reserve component pursuant to this section, when released from active duty, shall receive a lump sum payment of \$500 if he shall have served satisfactorily as a commissioned officer for a period of 2 years or a lump sum payment of \$1,000 if he shall have served satisfactorily as a commissioned officer for a period of 3 or more years."

The amendment was agreed to.

The next amendment was, on page 9, line 24, after the word "act", to strike out "and, upon the satisfactory completion of such instruction, he shall receive a lump-sum payment of \$500."

The amendment was agreed to.

The next amendment was, on page 10, line 17, after the word "Corps", to strike out "Upon acceptance of such commission in the Naval or Marine Corps Reserves, each such officer shall receive a lump-sum payment of \$1,000."

The amendment was agreed to.

The next amendment was, on page 11, after line 7, to strike out:

SEC. 12. The Secretary of the Navy, under such regulations as he may prescribe, may revoke the commission of any officer of the rank of ensign of the Regular Navy or of second lieutenant of the Regular Marine Corps and each officer whose commission is so revoked shall be discharged from the service without advance pay or allowances.

And insert:

SEC. 12. The Secretary of the Navy, under such regulations as he may prescribe, may revoke the commission of any officer of the Regular Navy or the Regular Marine Corps who at the date of revocation has had less than 6 years of continuous service as a commissioned officer, and each officer whose commission is so revoked shall be discharged from the service without advance pay or allowances.

The amendment was agreed to.

The next amendment was, on page 13, line 14, after the word "Reserve", to insert "by the Secretary of the Navy under similar conditions so far as applicable as prescribed by law for appointments from enlisted men of the Navy."

The amendment was agreed to.

The next amendment was, on page 14, after line 13, to strike out:

SEC. 20. Section 1379, Revised Statutes, is hereby amended by striking out the word "twenty-six" and substituting in lieu thereof the word "twenty-five."

And insert:

SEC. 20. No person shall be appointed assistant paymaster in the Navy who, on July 1 of the calendar year in which appointed, will not be less than 21 or more than 25 years of age, nor until his physical, mental, and moral qualifications have been established to the satisfaction of the Secretary of the Navy.

The amendment was agreed to.

The next amendment was, on page 15, after line 10, to insert:

(f) Section 1379 of the Revised Statutes.

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed, as follows:

*Be it enacted, etc.,* That a naval and Marine Corps officer candidate training program, supplementary to existing programs, is hereby established, which shall be administered by the Secretary of the Navy in accordance with the provisions of this act and with such regulations as the President may prescribe.

SEC. 2. No individual shall be enrolled in the training program which this act establishes unless (a) he be a male citizen of the United States; (b) with the consent of his parent or legal guardian in the case of a minor, he shall have entered into a contractual agreement with the Secretary of the Navy, acting for and on behalf of the United States, in which said individual obligates himself to the United States for such periods as may be necessary to effectuate the purposes of this act; and (c) he signs an agreement to accept a commission in the Navy or Marine Corps if offered and, having accepted such commission, he will, in the event of termination thereof, accept such commission in the Organized Naval or Marine Corps Reserve that may be offered him and thereafter will not resign from the Reserve prior to the sixth anniversary of the date of rank stated in his original commission in the Regular Navy or Marine Corps. The Secretary of the Navy may release any individual from such obligation and separate the individual from the training program at any time that, in the opinion of the Secretary of the Navy, the best interest of the naval service requires such action.

[PUBLIC LAW 545—79TH CONGRESS]

JOINT RESOLUTION

Relating to peanut marketing quotas under the Agricultural Adjustment Act of 1938, as amended:

C., 1940 edition, Supp. IV, title 7, secs. 1357 to 1359, inclusive), and in view of the critical shortage of high protein foods and feeds, and fats and oils, peanut marketing quotas shall not be proclaimed with respect to the crop of peanuts produced in the calendar year 1947, and no National, State, or farm acreage allotments for peanuts for the 1947 crop shall be established.

Approved July 24, 1946.
